Getting to market quicker is the name of the game in today's market. Insurers are looking for ways to incorporate carrier deviations into productized bureau content to improve their speed to market.

## The Challenge

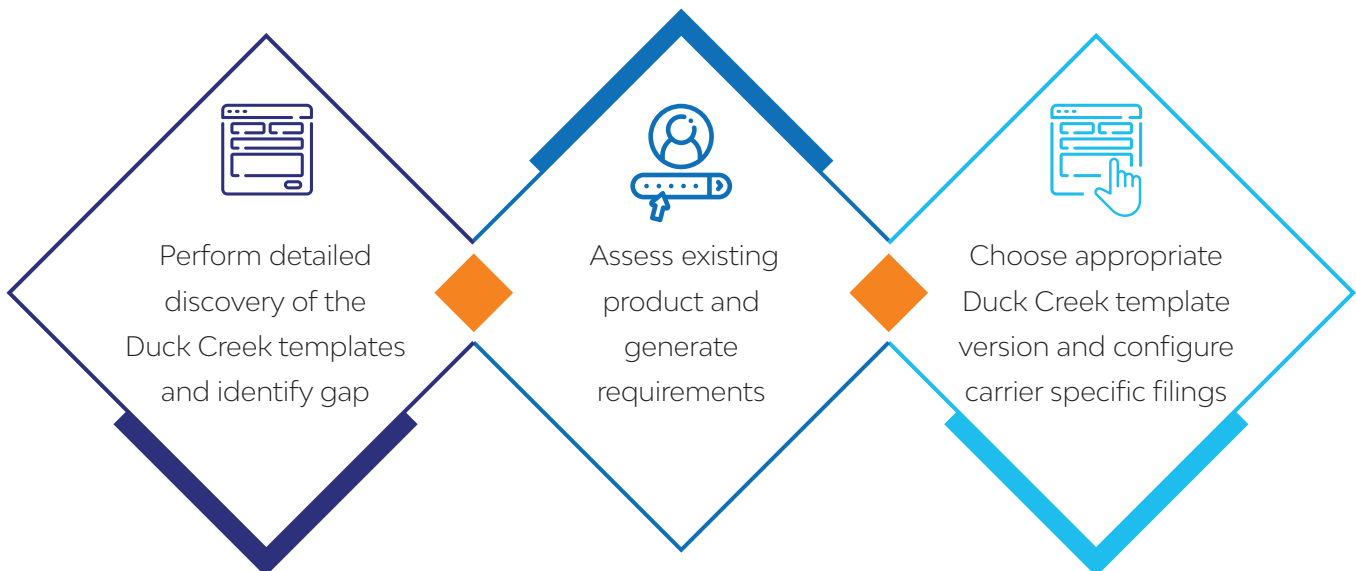

Duck Creek offers ready-made content for ISO/Bureau products for business alignment with industry standards and expedited rollout. To differentiate themselves in the crowded commercial admitted marketplace, carriers need to customize the Duck Creek content to fit their proprietary coverage, forms, rates and rules.

The blueprint addresses the expedited template customization framework by extending the Duck Creek LOB templates, modular product architecture and LTI's product configurator tools along with the Product Analyzer Utility.

## Solution Construct

### The Need

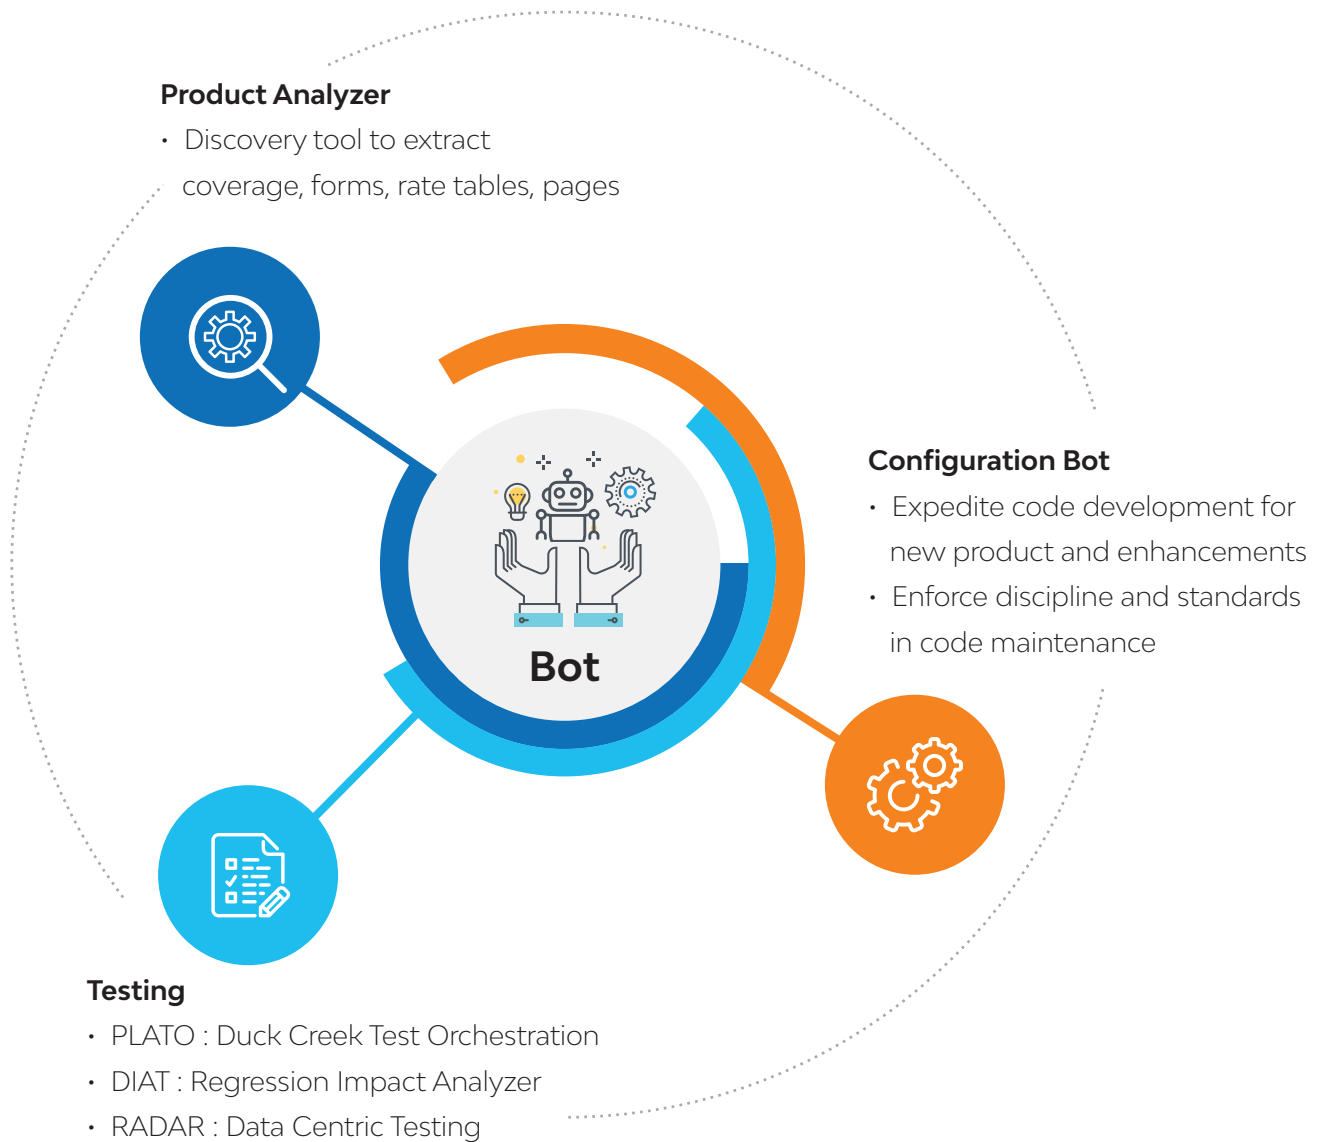

For Successful transformation, carriers must:

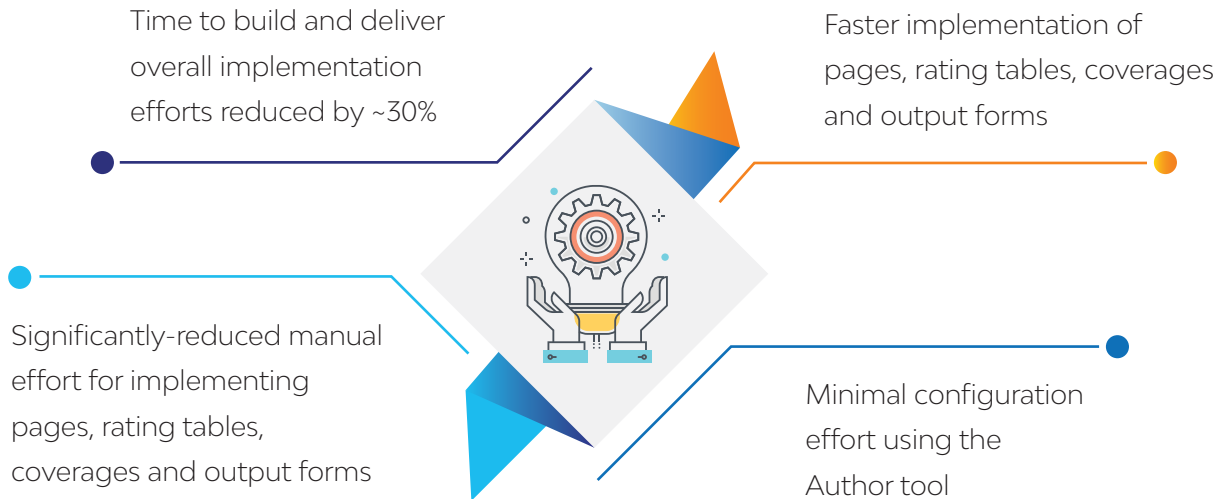

## The Process

- Utilize tool-assisted discovery and gap analysis
- Requirements capture in pre-defined templates for fields, coverage, pages, forms and tables
- Automated code generation by directly consuming the definition document
- Enforce Duck Creek Manuscript coding best practices

## The Outcomes

## LTI Advantage

LTI's Product Configuration Bot leverages the power of native Duck Creek API and repository of pre-defined formats for requirements capture to build Duck Creek manuscripts efficiently.

LTI's experience in rolling out multiple products for US Commercial and Specialty lines carriers enabled it to explore new possibilities within the Duck Creek 'Author' tool to enhance the customers Product Rollout Strategy.
