Migrating CBOs to the Cloud

Fast migration of your custom business objects (CBO) for compliance with Duck Creek OnDemand requirements.
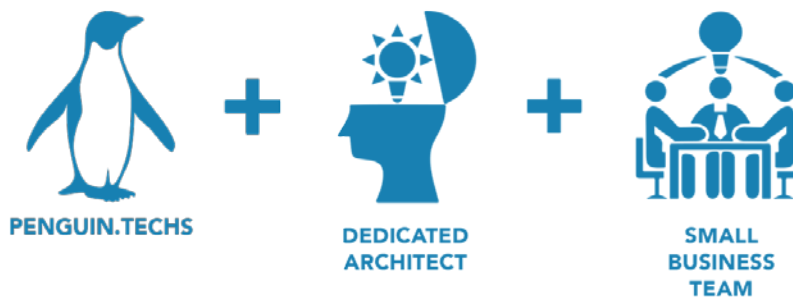

The Vision

Is moving to Duck Creek OnDemand part of your next business initiative? Do you have key functionalities in several custom business objects (CBOs) that must be migrated prior to adopting Duck Creek OnDemand? Penguin.Tech can provide you with the solution-minded team you need to successfully implement these changes while achieving your goals in record time.

- At Penguin.Tech, we ensure that no side effects are introduced, and no functionality is lost.

- Penguin.Tech experts have a vast understanding of ManuScripts and the engines that interpret them.

At Penguin.Tech, we are cloud-based, test-driven, and customer-focused, so you can rest assured with our CBO migration solutions.

Requirements

Getting started is easy. You will just need to provide a dedicated architect who understands your product(s) and integration(s), along with a small team of business users who can assist with test cases and acceptance criteria.

PENGUIN.TECHS + **DEDICATED ARCHITECT** + **SMALL BUSINESS TEAM**

PENGUIN.TECH

The Process

Agile and test-driven development are our core disciplines. We start small and iterate throughout a project, delivering continuously-refined working versions in a compressed timeframe.

Penguin.Tech will partner with your team to identify the first product(s) to migrate to OnDemand, then iterate via test-driven development and continuous delivery to replace your CBOs and repeat the process until all CBOs have been successfully migrated.

PARTNERED PROJECT TEAM → **EXECUTE ITERATIONS** → **REPEAT UNTIL COMPLETE**

Outcomes

Penguin.Tech's iterative solutions are delivered fast, so you see working results instantly and can account for modifications quickly. And we don't just replace your CBOs - we build a suite of automated tests that allow you to migrate to Duck Creek OnDemand with confidence.

The Penguin.Tech + Duck Creek Advantage

Duck Creek is the platform of choice for your policy administration and rating needs. Duck Creek OnDemand addresses upgrades, maintenance, and infrastructure challenges - freeing you up to focus on what matters most for your business.

Penguin.Tech expertly delivers cloud-based solutions that complement and extend the functionality of Duck Creek solutions.
