

DIGITIZING THE INSURANCE ECONOMY

Accelerate digital transformation, enterprise-wide.

From crash to payment, CCC combines AI and advanced technologies with deep network integrations. Insurers can now improve predictions, streamline workflows and lower cycle times while enhancing their customer's experience.

With CCC, redefine what's possible.		
Enable AI-Powered Decisions	Improve Customer Satisfaction	Strengthen Connections
With increased precision, CCC helps automatically identify accident types, repairability, claim routing and more - within minutes. Insurers can personalize decisions at scale, reduce risk, and improve efficiency.	From guided mobile experiences to text message updates, insurers can easily engage with their customers and capture data, photos and more throughout the claims journey.	CCC's extensive integrated network connects ecosystem partners to support insurer productivity, digitize interactions, and quicken time to resolution.

By embracing artificial intelligence and digitizing network interactions, insurers can find the foundation of straight-through processing. CCC is helping to make this industry vision a reality.

The combination of these critical pieces extends benefits beyond claims departments, delivering technology, insights and near real-time decisioning.

Powerful Technology Across Touchpoints

CCC solutions help create dynamic, seamless experiences across an end-to-end digital claims process.

CCC® Estimate - STP

Automates qualified claims according to insurer-specific rules, from analyzing vehicle damage photos to generating a complete, line-level estimate within minutes.

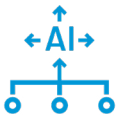

To learn more visit cccis.com/estimate-stp.

CCC® Total Loss Care

Streamline total loss resolution by digitizing workflows, expediting lien and title release, facilitating lender payoff requests, and more.

To learn more visit cccis.com/total-loss-care.

CCC Casualty Solutions

CCC's first- and third-party auto casualty solutions help insurers accelerate the casualty claims process by automating complex and cumbersome tasks, improving efficiencies and expediting workflows across the casualty claims experience.

To learn more visit cccis.com/casualty.

CCC® Payments

From repair facilities to lenders and beyond, CCC's third-party payments provider helps initiate seamless digital transactions, accelerating processing from FNOL to payment.

To learn more visit cccis.com/ccc-payments.

CCC® Safekeep

A digitized, comprehensive subrogation workflow solution, CCC Safekeep uses AI to analyze claims data and evidence to help achieve efficiencies and accelerate resolution.

To learn more visit cccis.com/subrogation.

The time to innovate is now.

With digitization moving full speed ahead, insurers have an opportunity to transform the post-collision experience for policyholders, while optimizing their own unique process.
