

PAYMENT OPTIONS YOUR POLICYHOLDERS EXPECT

In today's consumer-driven and increasingly digital world, it's imperative to offer more payment options to serve your diverse and ever-changing customers' needs. Paymentus can deliver on these needs all through a single technology stack and integrations with existing providers, like Guidewire, Duck Creek, ISI, etc.

POWERING THE NEXT GENERATION OF ELECTRONIC BILL PAYMENTS[®]

When policyholders can be tempted to switch and save, delighting and retaining customers is key. Paymentus provides the most comprehensive billing and payments experience that increases customer satisfaction with more payment options and more efficient features crucial for today's modern insurance carriers. Let Paymentus help you bill better with our omnichannel platform that streamlines and speeds up the billing, payments and disbursement process.

TRANSPARENCY & INNOVATION YOU NEED

While giving customers more ways to pay, we also provide visibility into every transaction through our reporting dashboard. It provides decision-making insight, user analytics and critical information to improve reconciliation and business operations.

THE PAYMENTUS DIFFERENCE: PAYMENT TECH THAT ELEVATES YOUR COMPLIANCE, OPERATIONAL, TREASURY AND CUSTOMER EXPERIENCE CAPABILITIES

Streamline your billing and payments solution. Create new efficiencies. And say hello to tech that pushes forward your organization's initiatives.

HIGHLY CONFIGURABLE

We believe in configurations, not customizations. Our advanced, rules-based engine solves for your business needs and payment rules without custom development.

FLEXIBLE

Our cloud-based platform is accessible through an array of APIs, iFrames and fully hosted solutions that provide 360 degrees of control over your user experience.

COMPLIANT

As a PCI Level-1 certified provider, we help businesses minimize and eliminate the risks

SECURE AND RELIABLE

Our system is architected for 100% uptime and maximum security. A multi-layer intrusion detection and prevention system, multi-factor authentication, encryption and tokenization ensure trust and security of transaction activity.

WIDELY INTEGRATED

We integrate with over 400 core systems, including accounting and ERP systems, that facilitate seamless payment, notification and reconciliation to core financial and operational systems.

ARCHITECTED FOR THE FUTURE

We're built from the ground up. With a single code base and no versioning, we're able to constantly innovate and stay ahead of ever-changing needs.
