

FD RYZE AI Agent Bundles for DuckCreek: Transform Your Insurance Operations

Supercharge your DuckCreek platform with our specialized AI Agent Bundles designed to revolutionize insurance workflows. Each bundle combines powerful AI agents that work together seamlessly to automate processes, deliver actionable insights, and drive operational excellence across your organization.

Our strategically crafted bundles provide targeted solutions for every department in your insurance business, from underwriting to claims processing, customer retention to executive decision-making.

Underwriting Team Bundle

1

Underwriting DataHub

Centralized repository that aggregates and analyzes all underwriting data sources

2

Underwriting Search

Advanced search capabilities to quickly find relevant policies and precedents

3

Claim History Search

Instant access to historical claims data for more accurate risk assessment

4

Policy Insight

AI-powered analysis of policy details to identify coverage gaps and opportunities

Target Roles

- Underwriters
- Underwriting Analysts

Why This Bundle Works

Enables real-time decision-making with unified access to underwriting data, historical claims, and policy details for comprehensive risk evaluation.

Standard Pricing Tier

Claims Team Bundle

Claim Intake

Automates the initial claim submission process with intelligent form filling and document classification

Claim Assistant

AI-powered assistant that guides adjusters through the claims handling process

Claim Summarization

Creates concise summaries of complex claims for faster review and decision-making

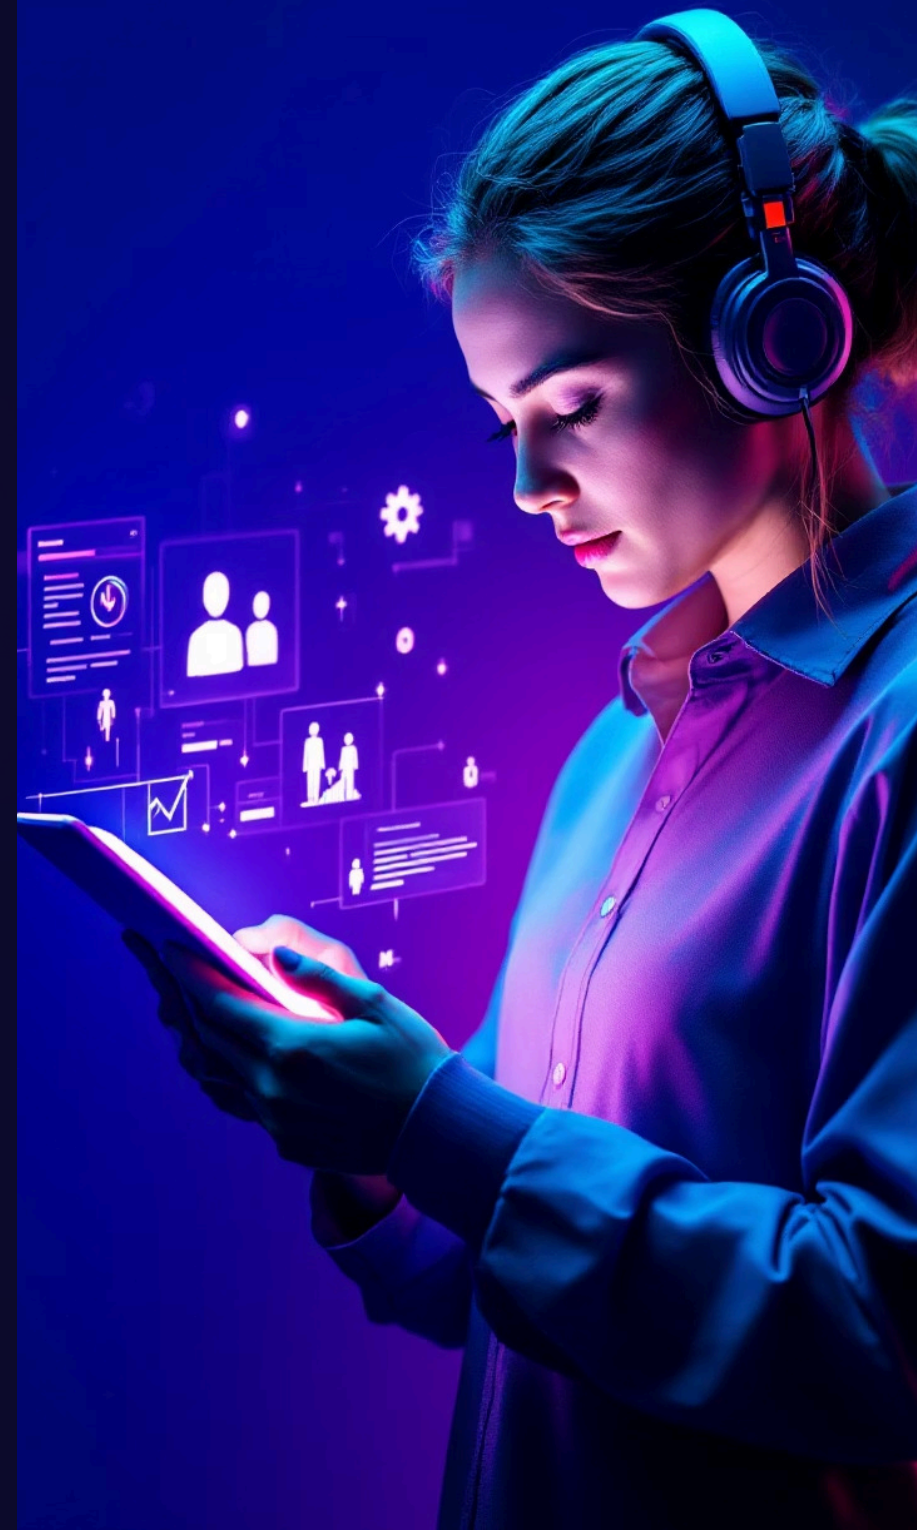

Claim History Search

Quickly identifies patterns and precedents across historical claims data

Target Roles: Claims Adjusters, Claims Managers

Simplifies claims handling and improves cycle time with smart automation and comprehensive case insights. Standard Pricing Tier

Customer Retention Pack

Bundle Components

Customer Churn Forecasting

Predicts which customers are at risk of leaving based on behavioral patterns and policy history

Policy Match

Recommends optimal policy configurations based on customer needs and risk profiles

Policy Behavior Analyst

Analyzes customer behaviors to identify opportunities for personalization and engagement

Why This Bundle Works

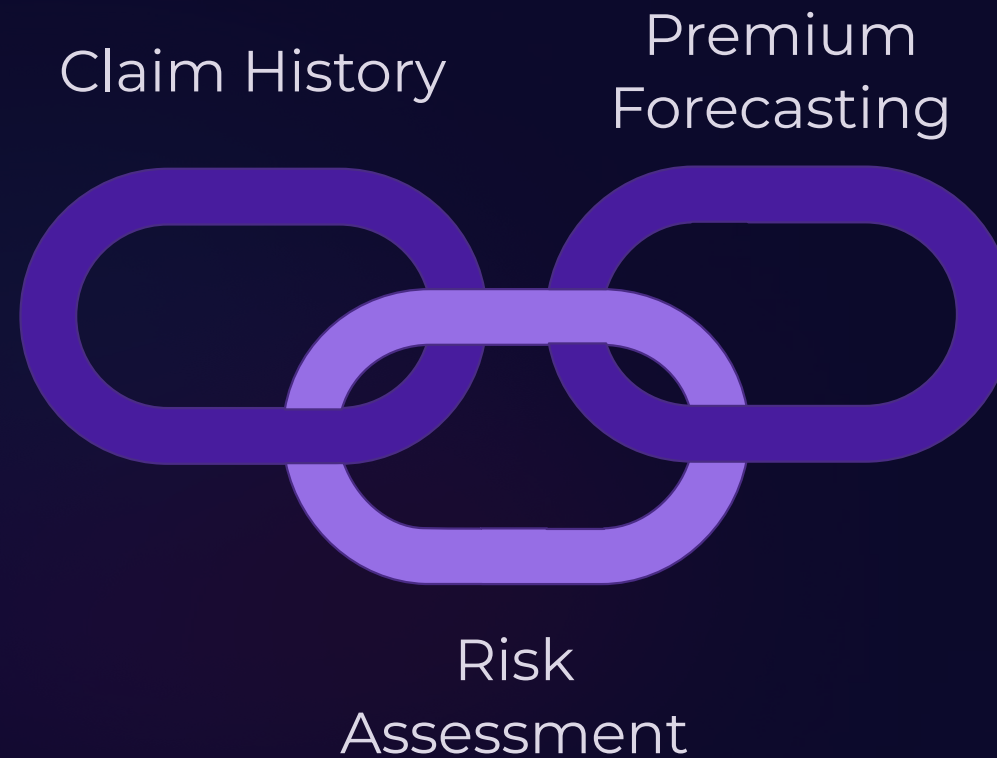

Identifies at-risk customers early and tailors policies to keep them engaged and satisfied, reducing churn and increasing lifetime value.

Target Roles

- Retention Specialists
- Customer Experience Teams
- Marketing Departments

 Standard Pricing Tier

Actuarial & Pricing Bundle

Bundle Components

- Claim Prediction Forecasting
- Premium Price Forecasting
- Risk Mitigation Advisor

Target Roles

- Actuaries
- Pricing Analysts

This powerful bundle combines claims data and pricing forecasts to help actuaries fine-tune rates and risk models with unprecedented precision. By integrating predictive modeling with risk mitigation strategies, your pricing team can optimize profitability while maintaining competitive rates.

Premium Bundles: Next-Level Integration
