# Duck Creek OnDemand
Insurance Software, Delivered as a Service

Duck Creek Technologies

For far too long, P&C insurance IT teams have been consumed by the relentless cycle of software upgrades, maintenance, and infrastructure support. This burden has diverted critical resources from strategic initiatives that differentiate your business: pioneering new insurance products and crafting exceptional customer experiences.

A modern platform is more than just a technological improvement: it is technology that supports strategy rather than dictating it. Welcome to a future where Duck Creek Technologies revolutionizes your ability to quickly solve ever-changing insurance business challenges and drive profitable growth.

Seamless, Continuous New Functionality Delivery

For decades, Duck Creek has been at the forefront of insurance technology, revolutionizing how P&C carriers manage their products and pricing. Duck Creek OnDemand, our cloud-native, scalable, managed services platform, does the heavy lifting so you stay current and focused on your strategic objectives.

Built on Microsoft Azure, Duck Creek OnDemand delivers enterprise-grade security, data privacy, and compliance carriers demand for confidentiality, integrity, and availability. While our expert Duck Creek team handles the maintenance, infrastructure, upgrades, and software performance.

Agile Operations, Simplified Management

Innovate and stay ahead of market demands, without the complexity of managing software and infrastructure internally.

Adapt & Execute:
No more disruptive upgrades
Stay current with the latest features, regulatory updates, and enhancements.

Reliability & Security at Scale
Insurers of all sizes, operate with unwavering confidence and grow without limits with consistent high availability, and effortless scalability.

Speed to Market
Launch new products, lines, or capabilities faster with a modern, flexible SaaS infrastructure that removes operational barriers.

Prioritize Core Operations
Focus and dedicate your energy to elevating customer experience, driving growth, and achieving strategic differentiation.

Lower Total Cost of Ownership
Eliminate the overhead of managing infrastructure, patching, upgrades, and monitoring, freeing up resources for high-impact innovation.
