

The Intelligent Core of Insurance

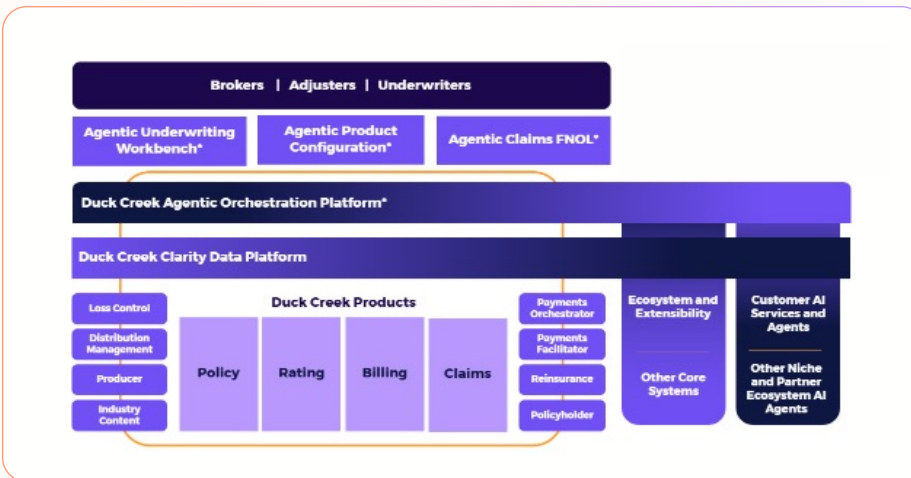

Duck Creek delivers the industry's leading Intelligent Core for Insurance, uniting enterprise depth, agentic intelligence, and unmatched agility. By connecting data, workflows, and insights across the policy lifecycle on a single unified platform, we help insurers move faster, operate smarter, and accelerate growth.

Bringing home the gold for our customers
Duck Creek is recognized as an industry leader and trusted by 75% of the world's largest global insurers.

*Core Platform

Where Insurance Stops Recording—and Starts Acting

Accelerate Growth 
Drive innovation and agility. Optimize resources, and delight customers.

Boost Profitability 
Automate, cut costs, underwrite smarter, and boost profitability.

Manage Risk 
Protect assets, predict trends, ensure compliance, and future-proof business.

Built for the complexity of global insurance, Duck Creek Intelligent Applications bring together core operations, embedded intelligence, evergreen SaaS delivery, low-code extensibility, and an open ecosystem. This foundation enables carriers to launch products quickly, modernize without disruption, and scale with confidence. Unlike fragmented approaches that multiply instances or bolt-on disconnected AI tools, Duck Creek preserves one core foundation with governance, compliance, and explainability built in.

 See Duck Creek Insurance Cloud in action.

● Duck Creek Agentic AI Platform and Orchestration

Add a governed intelligence layer across your operations with insurance-native AI that powers smarter workflows, explainable decisions, and audit-ready automation.

● Duck Creek Agentic Applications

AI driven agents directly into core workflows—enabling real time execution, automated decisioning, and continuous learning across policy, billing, and claims.

● Duck Creek Clarity Data Foundation

Turn connected insurance data into real-time, decision-ready insight across the Duck Creek Insurance Cloud, so teams act faster, operate smarter, and grow with confidence.

● Duck Creek Policy

Launch products faster, underwrite smarter, and scale confidently with a leading P&C policy administration system built for profitable underwriting, product speed, and global scale.

● Duck Creek Rating

Turn pricing into competitive advantage with an enterprise-grade rating engine that accelerates launches, sharpens pricing precision, and keeps product, underwriting, and billing aligned.

● Duck Creek Billing

Modernize billing, collections, and commissions with flexible, low-code billing workflows, embedded payments, and real-time financial insight that improve cash flow and customer experience.

● Duck Creek Claims

Streamline the claims lifecycle from FNOL to settlement with intelligent workflows, faster handling, stronger compliance, and better policyholder experiences.

● Duck Creek Industry Content

Accelerate product launches with bureau-backed content, Line of Business kits, and implementation accelerators that reduce effort while preserving pricing accuracy and compliance.

● Duck Creek Policyholder Portal

Deliver personalized self-service experiences that make it easier for policyholders to manage their insurance while reducing service costs and improving retention.

● Duck Creek Producer Portal

Give agents and brokers a more productive, connected experience with intuitive self-service, faster access to information, and streamlined collaboration.

● Duck Creek Distribution Management

Accelerate producer onboarding, strengthen compliance, and improve channel performance with connected distribution workflows and better producer experiences.

● Duck Creek Embedded Payments

Embed digital payments across billing and claims to reduce manual work, modernize collections and disbursements, and improve the policyholder experience.

● Duck Creek Loss Control

Improve risk selection and underwriting outcomes with connected loss control workflows, richer data capture, and more proactive risk management.

● Duck Creek Reinsurance

Strengthen financial control, improve visibility into exposure, and optimize capital strategies with connected reinsurance operations.

Duck Creek delivers the industry's leading Intelligent Core for Insurance, helping P&C and general insurers modernize core systems, connect operations, and embed insurance-native intelligence across the policy lifecycle. Our market-leading solutions are available standalone or as a full suite, with low-code extensibility, open APIs, evergreen SaaS delivery, and an agentic platform purpose-built for insurance.
