

# Bring Control to Reinsurance Complexity

Duck Creek Reinsurance is a cloud-native reinsurance solution for P&C insurers that replaces manual, fragmented processes with a unified, intelligent foundation. Built on the Duck Creek Intelligent Core, it centralizes treaty and facultative management, automates accounting and settlements, and delivers near real-time financial and exposure insight across ceded and assumed reinsurance. Seamless integration across core systems and partners improves accuracy, transparency, and operational efficiency at scale.

**Bringing home the gold for our customers**  
Duck Creek is recognized as an industry leader and trusted by 75% of the world's largest global insurers.

## Common Reinsurance Challenges

## How Duck Creek Reinsurance Moves You Forward

### Disparate systems undermine control

Treaties, recoveries, and exposures live across spreadsheets and disconnected systems, making it harder to manage capital, close accurately, and respond confidently during loss events.

### Manual processes & reporting stifle growth

Manual bordereaux, settlements, and reconciliations increase error risk and delay financial close.

### No clear view of exposure or recoverables

Lack of real-time data makes it difficult to manage exposure and optimize reinsurance strategies.

### Single source of truth

A single platform centralizes all reinsurance operations for near real-time transparency, and control, enabling more accurate decision-making.

### Automated financial operations

End-to-end automation accelerates close, improves accuracy, and delivers audit-ready reporting across the reinsurance lifecycle.

### Near real-time visibility into exposure and recoveries

Greater insight into exposures, recoverables, and financials gives teams confidence to manage risk, accelerate recoveries, and make informed decisions without waiting for month-end.

Maximize Recoverables. Minimize Leakage.

# Built for Disciplined Reinsurance Execution at Scale

## FEATURES

### End-to-End Lifecycle Management

Handle ceded and assumed reinsurance across treaty and facultative contracts in one system. Supports underwriting, accounting, and reporting with a unified data model.

### Centralized Contract Management

All types of contracts, including treaties, facultative reinsurance, fac-ob, proportional and non-proportional contracts, and all types of covers.

### Automated Accounting & Settlements

Automated bordereaux, settlements, and reconciliation. Improves speed, accuracy, and compliance across financial operations.

### Near real-time financial & risk insights

Up-to-date data on exposures, recoverables, and profitability. Proactive decision-making and stronger risk management.

### Cloud-native SaaS platform

Scalable SaaS with continuous updates and low IT overhead. Rapid deployment, Duck Creek ecosystem integration, consistent data flows, and long-term agility.

## Why Carriers Win with Duck Creek

### • True End-to-End Reinsurance Platform

Covers the full lifecycle of ceded and assumed reinsurance in a single solution. Reduces reliance on multiple systems and improves efficiency.

### • Real-time Intelligence

Provides immediate access to critical financial and risk data. Enables smarter, faster decision-making across the organization.

### • Automation at Scale

Automates complex financial and operational processes. Minimizes manual effort while improving speed and accuracy.

### • Global Accounting Ready

Manage all account types, currencies, and regulatory requirements in one system.

## Proven in the Market

### Covéa

Consolidated its Reinsurance Repositories in under 12 Months, managing 1,297 treaties and 281 cedant companies in 35 countries.

### FBL FINANCIAL GROUP

Reduced data entry time, increased analysis and planning focus for faster billing and cash collection.

"We were looking for a platform that would be able to provide "one source of truth" for reinsurance calculations throughout QBE—for both ceded and assumed reinsurance. We also felt that Duck Creek Technologies were a good fit for QBE and that we would be able to work well with them."

Katriona Maciver, VP Strategy and Operations  
Ceded Reinsurance. QBE

## Performance at Scale

### Accelerated Financial Close

Reduce reporting and settlement cycles from weeks to days.

1,297 treaties

and 218 cedant companies in 35 countries.
