

# LOSS CONTROL FOR UNDERWRITERS

Maturing your loss control function drives down loss ratios, elevates customer satisfaction and improves operational efficiency across your core systems.

## UNDERWRITING BENEFITS

### Access Data to Price Premiums Better & Improve Loss Ratios

*Having better data—and a digitized way to ingest and pull-out relevant data—can reduce underwriters' time in underwriting an application and make for more accurate risk assessments.*

*Insurers are looking for ways to not only improve [customer] experience, but also reduce costs, streamline the processes, and use the resulting data more effectively.*

Price premiums more accurately and quickly with real time risk exposure data.

Identify risk sooner, to prevent claims and to reduce their severity when they do occur.

Quickly price only those accounts you want to acquire in order to be competitive with other carriers and disrupt new market entrants.

Create and manage Service Plans and automatically update loss control, underwriting and the insured.

### Use Technology to Drive Customer Acquisition & Operational Efficiencies

*All the while, technology has continued its relentless advance and an emerging player ecosystem is threatening to shake up customer acquisition.*

*Increased levels of automation are helping insurers address staffing challenges and the ability to scale, while improving turnaround time, customer satisfaction, and better outcomes in general.*
