

MAXIMIZE SAVINGS EVERY BILL, EVERY DAY

What Makes It Work

SmartCoder

Simplifies bill data entry and validation with intuitive editing and auditing tools.

Pathways Rules Engine

Customize workflows, flag exceptions, and promote auto-adjudication.

CareControl®

Links utilization review with bill review to enforce treatment plans and detect non-compliance.

Shield Adjuster Portal

A configurable interface for adjusters to review bills, manage alerts, and track KPIs based on business needs.

Compliance Library

Stay ahead of regulatory changes with a dynamic repository of jurisdictional rules.

Enterprise Reporting

Access 50+ standardized reports and dashboards for financial insights and audit readiness.

The Strataware Advantage

Automated Accuracy

Reprice bills to state fee schedules, UCR rates, and apply network discounts automatically, ensuring no dollar is wasted.

Seamless Integration

Connects effortlessly with claims systems, PPO networks, utilization review, and document capture services.

Fraud & Error Detection

Catch duplicate billings, unauthorized services, and non-compliant charges with built-in decision support and compliance tools.

Web-Based Efficiency

No infrastructure needed. Real-time updates, secure access, and scalable performance from anywhere.

WHO WE ARE

StrataCare's medical bill review platform, Strataware, is the leading solution for the casualty claims industry with more workers compensation bills processed annually than on any other bill review system. It unifies regulatory and clinical bill review, PPO networks, and specialty payment integrity solutions into one comprehensive system.

Backed by MedRisk's decades of managed care leadership, StrataCare empowers organizations to improve efficiency, reduce costs, and achieve better outcomes.
