

Strataware SERVICE +

Simplifying Complexity
Amplifying Savings

About Us

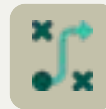

Strataware Service+ is a comprehensive medical bill review solution designed for the casualty claims industry.

Supported by MedRisk's decades of managed care leadership, Strataware Service+ streamlines operations, optimizes savings, and elevates compliance, delivering exceptional value for workers' compensation and auto injury claims. With advanced technology and a unified team, organizations gain efficiency, reduce costs, and achieve better outcomes.

The Strataware Service+ Advantage

- ✓ Industry-leading expertise and continuous innovation.
- ✓ Seamless integration with claims management and medical management systems.
- ✓ Designated account managers and highly experienced bill reviewers.
- ✓ Actionable analytics and business intelligence for ongoing savings.
- ✓ Structured transition framework and governance for successful implementation.

Ready to transform your medical bill review process?
Contact us to learn how Strataware Service+ can help your organization achieve greater efficiency, savings, and compliance.

End-to-End Bill Review

Outsource your entire bill review process for faster, more accurate, and secure claims management.

Customizable Workflows

Tailored solutions to fit your unique business rules and protocols.

Advanced Automation

Eliminate manual data entry and multiple "touches" for high accuracy and speed.

Network Optimization

Maximize PPO and specialty network penetration, track leakage, and model configurations for optimal savings.

Specialty Review Services

Access clinical experts for complex or high-dollar bills, including nurse review and provider negotiations.

Integrated Payment Solutions

Digital payment options reduce administrative costs and delays.

Compliance & Reporting

Full support for state-mandated and medical data call reporting, with real-time visibility through the Shield Claims Portal.

Scalable Support

Overflow and short-term services available to handle volume spikes and complex cases.
